YTI Career Institute launching dental assisting program in York

Updated: 09/10/2013 09:09:27 PM EDT

YTI Career Institute will launch a dental assisting program at its York campus starting in October, according to a news release.

The program was previously only offered at the Altoona, Capital Region and Lancaster campuses, the release says.

Students who graduate from the nine-month training program learn how to take and process x-rays, assist with dental procedures, manage a dental office, mix dental materials, among other things.

Classrooms and labs have dental equipment and students also complete externships in dental offices and clinics. Learn more about the program at www.yti.edu/programs/Dental-Assisting.asp.
